

Building Confident, Audit-Ready PEIMS Leadership

Purpose

PEIMS Academy is a yearlong, cohort-based professional learning experience designed to strengthen district PEIMS capacity, continuity, and compliance. The Academy develops confident PEIMS coordinators who understand what to report, why it matters, and how to sustain accurate reporting over time—reducing audit risk and protecting district funding.

Why This Matters to Superintendents

- PEIMS errors carry financial, accountability, and compliance consequences
- Many districts rely on a single individual with institutional knowledge
- Staff turnover creates high-risk gaps in reporting continuity
- PEIMS expectations are increasingly complex and interdependent

Program Design

- One half-day (4-hour) in-person session each month
- Monthly mentoring and technical check-ins
- Hands-on labs aligned to the PEIMS reporting cycle
- Certification checkpoints and capstone project
- Instruction and support from three Region 4 PEIMS specialists

What Districts Receive

Structured training, ongoing mentoring, reduced compliance risk, improved data accuracy, and increased staff confidence and retention.

Annual Investment (Per Participant)

\$2,500 - Includes all training sessions, mentoring, certification, materials, and box lunch at each in-person session.
