

escDevelopWorks™ Participant: Online On Demand

This guide shows how to quickly find, register for, and launch on-demand sessions on the escDevelopWorks™ Participant Site.

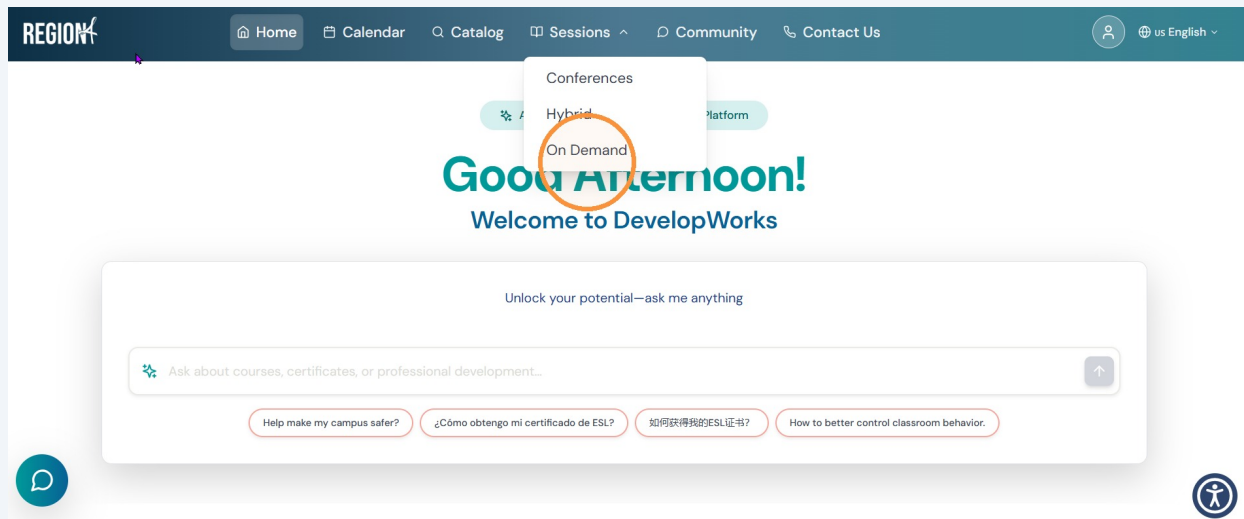

1

Navigate to the escDevelopWorks™ Participant Site. If you already have an existing escWorks® account, click Create New Account to sign in with your escWorks® email address and create a password to verify the account. Note: You do not have to sign in to view certain features of the site, such as the calendar, catalog, and AI-powered search.

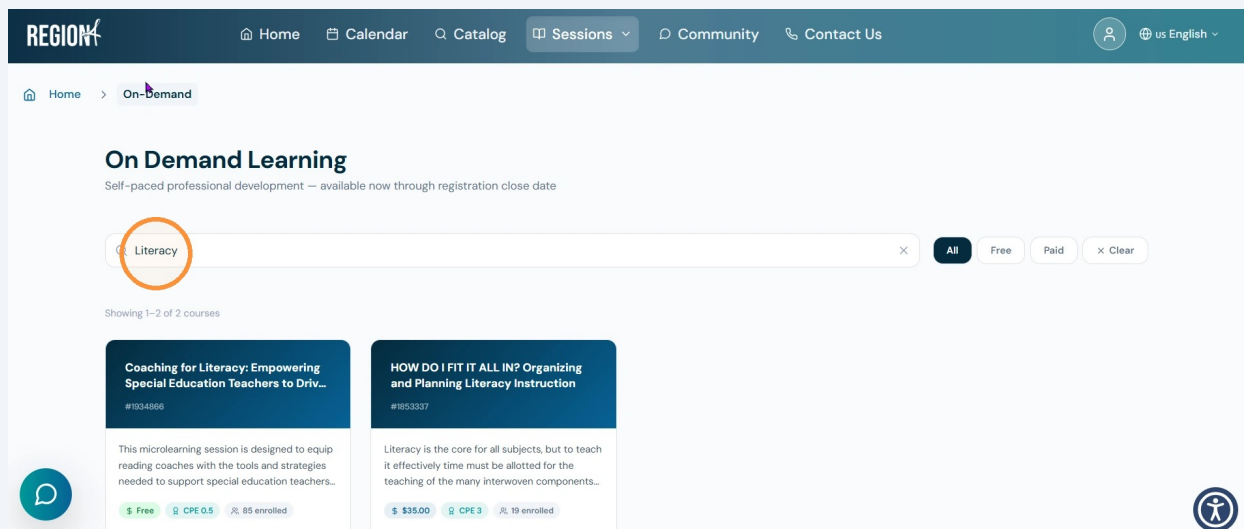

2

To view On Demand Sessions, click **Sessions**. Then choose **On Demand** from the drop-down menu.

3

Enter the title of the session in the search bar. Results will automatically appear. Filter sessions by clicking **Free** or **Paid** on the right-hand side.

4

Select the session and to review the details and register. If you are not already signed in, you will be redirected to the login page before you can register.

Coaching for Literacy: Empowering Special Education Teachers to Drive Reading Growth Registration Open

Event Description

This microlearning session is designed to equip reading coaches with the tools and strategies needed to support special education teachers in fostering significant literacy growth. Learn how to guide special education teachers in implementing evidence-based literacy instruction that is directly aligned with their students' Individualized Education Programs (IEPs). This session also provides a clear framework and ready-to-use forms for conducting student-centered coaching cycles to help teachers unlock their students' full reading potential.

Stop the Bleed Registration Open

Event Description

This course, based on the nationally recognized program developed by the American College of Surgeons (ACS), empowers everyday citizens to become immediate responders in a bleeding emergency. Trauma is the leading cause of death for individuals under 46, and uncontrolled bleeding is the number one cause of preventable death after an injury. In this virtual class, you will learn simple, life-saving techniques to control bleeding until professional medical help arrives. The techniques covered are applicable to everyday accidents, natural disasters, and mass casualty events.
