

2026-2027 Texas SLOs & Portfolios HUB Technical Support Calendar

TECHNICAL ASSISTANCE SESSIONS – OVERVIEW

The **Texas SLOs/Portfolio HUB** provides technical assistance for SLO and Portfolio implementation, data management, and scoring. This support improves data accuracy, expands teacher eligibility, strengthens evidence of student growth, and helps districts build sustainable compensation systems beyond TIA.

The TA session calendar in 2026–2027 will follow a model that includes Texas SLOs/Portfolio HUB partnering with regional ESCs in developing and delivering sessions, with the following guiding principles:

- Provide districts with high-quality support, including Data Management technical assistance, SLO design, and Portfolio calibration.
- Promote Texas SLOs/Portfolio HUB as the regional expert for Data Management Support, SLOs, and Portfolios.
- Support all ESCs in building knowledge and capacity within regional ESCs by modeling best practices in SLO/Portfolio implementation and Data Management Support.
- Allow for more intentional partnership with ESCs to support regional knowledge building and expanded supports that integrate SLOs, and Portfolios.

ESC Virtual Open Office Hours:

The Texas SLOs/Portfolio HUB will support ESC Leads and Model Schools with additional sessions in the 2026–2027 school year to build regional capacity in Data Management support utilizing SEE ONE, DMAC, Eduphoria, Google Classroom, or any other platform and SLOs/Portfolio Student Growth Component.
