MULTI-TIERED

SYSTEM OF SUPPORTS (MTSS)

Service Package Brochure

Multi-Tiered System of Supports

Multi-Tiered System of Supports (MTSS) is a key element of the Effective District Framework (EDF) and plays a vital role within Lever 3—Integrated Student Supports Systems. MTSS provides a structured, proactive, and data-informed approach to supporting all students, including those with disabilities, by addressing their academic, behavioral, linguistic, and social-emotional needs. The MTSS framework ensures that students receive appropriate levels of support in a timely manner, thereby making universal, targeted, and intensive interventions accessible.
